INFINITY Quick Fit

by **AT** applied system technologies™

Infinity Quick-Fit has been specifically designed with many industries in mind. From simple home garage users to hi-tech machine builders and conveyor manufactures, Quick-Fit meets every need. The unique features of Quick-Fit are its light weight marine grade aluminum tubing which will never corrode and its solid brass nickel plated fittings. When the two components are combined you achieve an un-paralleled quality that is not found in any other piping system. Installation of Quick-Fit is literally seconds and

requires nothing more than a simple tube cutter and deburring tool for even the most complex installation. Cut, deburr and push together! Once installed you will be amazed at the appearance that Quick-Fit provides, enhancing all applications where it is installed. Its light weight design enables Quick-Fit to be installed anywhere with no special mounting requirements. Quick-Fit truly is in a master class of its own, the highest quality, the most durable and all at an affordable cost.
